

COMPANY PROFILE

SARCO Engineering SRL

Chişinău, Republic of Moldova
tel: (+373) 022 928 240 e-mail: office@sarco.md

SARCO provide professional client-focused construction solutions and go above and beyond on every project and deliver on our promises with integrity.

Every building project we start with clear goals: client's requirements satisfaction via realization of reliable long-life constructions.

We undertake a variety of projects for a wide range of clients – from small private developments to large Government projects.

Now SARCO is able to execute a wide range of activities and works:

- Design and development of technical documentation for buildings, technical assistance and consulting in organization of building procedures;
- Construction activities: practically all types of works;
- Development and implementation of energy efficient solutions;
- Metal fabrications;
- Sales and mounting of sandwich panels and their accessories.

Design is the foundation of a successful project, and requires professional and honest approach. Design phase determine the effectiveness of investments and meeting client expectations.

SARCO follows the goal of satisfaction the client expectations from the project realization. We assist the client in:

- Planning & scheduling of construction works
- Availability of alternative solutions and its costs
- Estimating & Budgeting activities
- Receipt of permits and all other necessary documents for works initiation
- Building Maintenance
